The following intermediate objectives that address the supply and demand side challenges will support the achievement of the overall activity goal.</p> <ul style="list-style-type: none"> - Intermediate Objective 1 (address supply side challenges): Improve and standardize the quality of tea produced for export markets through climate smart sustainable farming and production practices, improved storage and packaging. - Intermediate Objective 2 (address demand side challenges): Improve Nepali tea farmers' access to high value international export markets through new sales channels, awareness generation and branding. 	\$1,000,000	\$1,000,000
Overseas	72036724FA00003	72036724FA00003	USAID/NEPAL	The Feed the Future Nepal USAID Digital Agriculture will work to enhance climate-smart farming through digital tools and multi-sector partnerships. It will improve crop productivity, mitigate the risk of crop failure, and minimize post-harvest losses. Overall, it will strengthen Nepal's digital ecosystem, specifically in the agriculture sector.	\$1,000,000	\$1,000,000
Overseas	72036724FA00004	72036724FA00004	USAID/NEPAL	The purpose of this awards is to save lives, prevent HIV (human immunodeficiency virus) infections, and accelerate progress toward achieving sustainable HIV/AIDS epidemic control in Nepal. Through these awards, USAID aims to support Nepali organizations to strengthen local systems for sustained HIV epidemic control; prevent and avert new HIV infections; achieve and exceed 95 percent of PLHIV knowing their status, 95 percent of PLHIV who know their status accessing sustained ART services, and 95 percent of PLHIV on ART achieving viral load suppression; and contribute to Nepal's goal of ending the HIV/AIDS epidemic as a public health threat by 2030.	\$4,400,000	\$2,200,000

				<p>Through this award, AMDA-Nepal will continue providing HIV (human immunodeficiency virus) prevention, care, and treatment services to key populations (men having sex with men, transgender people, sex workers and their clients and sexual networks) at high-risk for HIV infection and people living with HIV in Nepal.</p> <p>This assistance activity will deliver HIV prevention services to avert new infections, detect and treat new HIV cases, and provide care to increase adherence to antiretroviral therapy (ART) and community HIV viral load suppression to defined populations in Nepal. This activity will be conducted in alignment with activities, targets, and budgets defined in the U.S. President’s Emergency Plan for AIDS Relief (PEPFAR) Regional Operational Plan (ROP) 2024, to be implemented during Fiscal Year 25 and 26. The proposed period of performance for this activity is 24 months.</p>		
Overseas	72036724FA00005	72036724FA00005	USAID/NEPAL		\$600,000	\$300,000

Overseas	72036724LA00001	72036724LA00001	USAID/NEPAL	The USAID Hamro Samman II activity is designed to provide appropriate, sustainable, and scalable solutions to the federal, provincial and local Government of Nepal (GON) efforts to combat human trafficking. Winrock International (the Recipient) had provided critical support including establishing the Local Level Committees on Combating Human Trafficking (LCCHT), formulating their plans and policies related to prevention and protection of Trafficking in Persons (TIP) survivors and at-risk populations during the implementation of the Hamro Samman Activity. The Hamro Samman Activity contributed to local governments' monitoring of TIP risk sectors like the Adult Entertainment Sector to ensure children are not recruited and men and women are not coerced for sex and labor trafficking. The Recipient also engaged with the Ministry of Women, Children, and Senior Citizens (MoWCSC) to bridge the official TIP data gap and developed a data system called Social Information Management System (SIMS).	\$4,000,000	\$3,000,000
